Ali I. Faour

Technical Solutions Engineer · AIoT & Digital Transformation · Software Product Architecture

Abu Dhabi, UAE · +971 50 427 0258 · ali.i.faour@outlook.com · LinkedIn · Portfolio

INDEPENDENT SOFTWARE PRODUCT

Gridlock ERP — Creator & Lead Architect

2024–present

Personally owned and developed independently of Royal Gas

Conceived and architected a 36-module enterprise ERP and operations-management platform spanning sites, facilities, assets, work orders, procurement, contracts, finance, document workflows and utility operations.

- Own the product vision, requirements, domain boundaries, record relationships and end-to-end user journeys.
- Direct AI-assisted implementation using a modular .NET 10 / Blazor architecture, EF Core and MySQL; review design decisions and integrated behaviour.
- Lead verification gates, installation and deployment planning, operator-focused usability refinement and pilot preparation.

Status: In development / pilot preparation. Independent software undertaking; not a Royal Gas work assignment or employer-owned product.

PROFESSIONAL EXPERIENCE

Operations & Digital Transformation Lead (AIoT / Telemetry) · Associate Project Manager

Dec 2023–present

Royal Development for Gas Works and Contracting · Abu Dhabi, UAE

- Lead technical escalations and cross-functional coordination among operations, field teams, manufacturers, project consultants and management.
- Directed an AED 5M Department of Energy LPG infrastructure program under AtkinsRéalis oversight, coordinating over 400 work orders across site assessment, proposals, submissions and closeout.
- Recovered an AED 1.2M ADNOC Ruwais scope by reorganizing field deployment for eight technicians, shortening delivery from six months to two months.
- Coordinated gas safety devices, monitoring platform requirements and remote-control integrations with the manufacturer's engineering team.
- Configured and deployed 290+ GSM tank-level telemetry devices across Abu Dhabi and Dubai; supported field verification, technician training, data reconciliation and operational reporting.
- Conducted LoRa mesh field trials, managed gas-control panel deployment, and reconstructed 30+ years of operational data into a structured Excel-based ETL master database.

Intern — Control Systems Engineering / IT Support

Jan–Nov 2023

Royal Development for Gas Works and Contracting · Abu Dhabi, UAE

Assembled and tested LPG detection/control panels; supported field inspections, calibration and preventive maintenance; assisted with Active Directory, infrastructure checks and IT operations.

Full-Stack Software Engineer

Aug 2022–Jan 2023

Tough Leaf · Lebanon

Developed PHP/MySQL/JavaScript features for a construction bidding platform; worked on REST APIs, payment integration, input validation, SQL-injection and XSS prevention, and Git-based collaboration.

SELECTED WORKPLACE INITIATIVES

MePS Engineering Proposal System: Regulatory gas-submittal preparation, demand calculations, and structured technical documentation.

KB200N Controller Board: Hardware redesign concept to simplify multi-board control panels.

DoE / ADNOC Reporting Pipelines: Python and Excel workflows supporting 1,500+ DoE reports and 224 ADNOC submission packages.

EDUCATION

B.E. Computer Engineering · Lebanese International University · 2022 · UAE MOHESR recognized

TECHNICAL SKILLS

Software & Data	C#, Python, SQL, .NET 10, Blazor, EF Core, MySQL, REST APIs, automation, data pipelines
Industrial Systems	LoRa / LoRaWAN / Mesh, Modbus, RS485, 4G / GSM / NB-IoT, SCADA / PLC, embedded systems, panel commissioning
Delivery	Systems architecture, cross-functional project coordination, technical requirements, vendor coordination, testing, deployment

SELECTED CERTIFICATIONS & TRAINING

ISO/IEC 27001:2022 Lead Auditor training — TÜV SÜD · AWS Certified Cloud Practitioner · ADNOC Work Management System · ADNOC Life Saving Rules · Industrial IoT Markets and Security · Cisco Network and Endpoint Security

End Of Report

Recommendation Letter for Ali Faour

To Whom It May Concern,

I am pleased to write this letter of recommendation for Ali, who previously reported to me during his tenure at Royal Gas. Throughout our time working together, I found him to be exceptionally proactive, detail-oriented, and technically skilled.

One of his standout qualities is his ability to deliver accurate and timely data, which consistently supported decision-making processes. His programming capabilities have been instrumental in streamlining operations within his company. Notably, he developed solutions that enabled real-time updates with a single click, significantly enhancing efficiency and alignment across teams.

Currently, he is leading the implementation of an internal application designed to serve as a centralized data bank for Royal Gas. This initiative will empower the entire team with seamless access to updates and insights, again with just one click. His vision and execution in this area reflect both innovation and a deep understanding of operational needs.

Given his experience and technical acumen, I am confident that he has the capability to develop a wide range of applications that would be a valuable asset to any organization. His contributions go beyond technical delivery, they foster collaboration, transparency, and continuous improvement.

I highly recommend Ali for any future endeavors and am certain he will be a significant addition to any team he joins.

Sincerely,

Halla Husain

Associate Director – Project Controls

AtkinsRéalis

Lebanese International University (LIU)

Recommendation letter for student Ali Faour to master I of engineering program

Dear Admissions Committee,

It is a great pleasure to recommend student Ali Faour for admission to your master of engineering program. He is one of the most serious students I have taught during "Signals and Systems" course in spring 2020-2021 and finished with a C grade.

He has been very interested in the scientific contents. He has been an active, outgoing presence in class asking the right questions. His seriousness nature and openness to feedback means he is always learning and growing as a learner, an impressive strength that will continue to serve him as well in university and beyond.

Ali has my highest recommendation for admission to your master I of engineering program. Ali's endless curiosity, combined with his willingness to take risks to succeed, leads me to believe there will be no limit to his growth and achievements in university and beyond.

Please don't hesitate to contact me at walid.kaakour@liu.edu.lb if you have any questions.

Sincerely,

Walid El-Kaakour

To Whom It May Concern:

Ali Faour is an excellent student at the school of Computer and Communication Engineering at Lebanese International University. I have taught Ali three major courses : Data Structures and Algorithms, Mobile Applications and Development and Operating Systems.

Ali is an intelligent and self-motivated and very curious student. Moreover, he is hard worker, very ambitious and insistent person.

I greatly recommend you to have a researcher like Ali.

Sincerely,

Dr. Soha FARHAT

Lebanese International University (LIU)

soha.farhat@liu.edu.lb

Introduction to Cybersecurity

Issued by: Cisco

Issued to: Ali Faour

Issued on: 26 November 2020

Description

Cisco verifies the earner of this badge successfully completed the Introduction to Cybersecurity course. The holder of this student-level credential has introductory knowledge of cybersecurity, including the global implications of cyber threats on industries, and why cybersecurity is a growing profession. They understand vulnerabilities and threat detection and defense. They also have insight into opportunities available with pursuing cybersecurity certifications.

Python Essentials 1

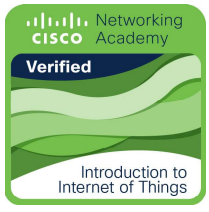

Issued by: Cisco

Issued to: Ali Faour

Issued on: 28 November 2022

Description

Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 1 course and achieved the student level credentials. Earners have knowledge of the concepts of computer programming, the syntax and semantics of the Python language as well as demonstrate the ability to accomplish coding tasks related to the essentials of programming in the Python language and resolve implementation challenges using the Python Standard Library.

Introduction to IoT

Issued by: Cisco

Issued to: Ali Faour

Issued on: 2 February 2023

Description

Cisco verifies the earner of this badge successfully completed the Introduction to Internet of Things course. The holder of this student-level credential has introductory knowledge of IoT and has an understanding how it enables the Digital Transformation along with emerging technologies such as data analytics, AI/ML and the increased attention on cybersecurity. They understand the importance of Intent Based Networking to be able to connect and secure tens of billions of new devices with ease.

Computer Hardware Basics

Issued by: Cisco

Issued to: Ali Faour

Issued on: 9 February 2023

Description

Cisco verifies the earner of this badge successfully completed the Computer Hardware Basics course and achieved this student level credential. Earner has fundamentals knowledge of computers and mobile devices, how they work, as well as the basic concepts and skills needed to install components to build, repair, upgrade personal computers and and basic troubleshooting tools and techniques.

AWS Certified Cloud Practitioner

Issued by: Amazon Web Services Training and Certification

Issued to: Ali Faour

Issued on: 4 March 2023

Expires on: 4 March 2026

Description

Earners of this certification have a fundamental understanding of IT services and their uses in the AWS Cloud. They demonstrated cloud fluency and foundational AWS knowledge. Badge owners are able to identify essential AWS services necessary to set up AWS-focused projects.

Big Data Foundations - Level 1

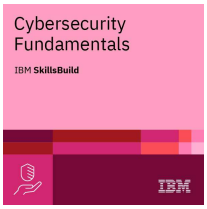

Issued by: IBM

Issued to: Learner

Issued on: 1 April 2023

Description

This badge earner has a basic understanding of Big Data concepts and their applications to gain insight for providing better service to customers. The earner understands that Big Data should be processed in a platform that can handle the variety, velocity, and the volume of data by using components that require integration and data governance.

Cybersecurity Fundamentals

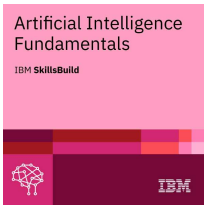

Issued by: IBM SkillsBuild

Issued to: Ali Faour

Issued on: 3 April 2023

Description

This credential earner demonstrates a foundational understanding of cybersecurity concepts, objectives, and practices. This includes cyber threat groups, types of attacks, social engineering, case studies, overall security strategies, cryptography, and common approaches that organizations take to prevent, detect, and respond to cyber attacks. This also includes an awareness of the job market. Earners can use this knowledge to pursue further education for a variety of roles in cybersecurity.

Artificial Intelligence Fundamentals

Issued by: IBM SkillsBuild

Issued to: Ali Faour

Issued on: 8 April 2023

Description

This credential earner demonstrates knowledge of artificial intelligence (AI) concepts, such as natural language processing, computer vision, machine learning, deep learning, chatbots, and neural networks; AI ethics; and the applications of AI. The individual has a conceptual understanding of how to run an AI model using IBM Watson Studio. The earner is aware of the job outlook in fields that use AI and is familiar with the skills required for success in various roles in the domain.

Operating Systems Basics

Issued by: Cisco

Issued to: Ali Faour

Issued on: 11 April 2023

Description

Cisco verifies the earner of this badge successfully completed the Operating Systems Basics course and achieved this student level credential. Earner has fundamental knowledge of operating systems by covering the basic concepts and skills needed to explain the purpose and characteristics of operating systems, implement basic operating system security, and explain how to configure mobile device network connectivity and email.

Cybersecurity Essentials

Issued by: Cisco

Issued to: Ali Faour

Issued on: 11 April 2023

Description

Cisco verifies the earner of this badge successfully completed the Cybersecurity Essentials course. The holder of this student-level credential has foundational knowledge of cybersecurity, including the basics of network security, encryption and cybersecurity laws. The holder has been introduced to tactics and techniques used by Black Hats, and the principles of Confidentiality, Integrity, and Availability used by White Hats to defend networks.

Introduction to the Threat Landscape 1.0

Issued by: Fortinet

Issued to: Ali Faour

Issued on: 19 April 2023

Description

The Introduction to the Threat Landscape 1.0 badge recognizes a fundamental understanding of the cyber threat landscape. The badge earner has demonstrated essential knowledge of the threats that endanger computer networks, the cast of bad actors who are behind cyber threats, and the cyber security principles that can keep users and computer networks safe.

Python Essentials 2

Issued by: Cisco

Issued to: Ali Faour

Issued on: 16 May 2023

Description

Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 2 course and achieved the student level credentials. Earners have knowledge and skills in intermediate aspects of Python programming, including modules, packages, exceptions, file processing, as well as general coding techniques and object-oriented programming (OOP), and prepares the learner for the PCAP – Certified Associate in Python Programming certification.

Agile Explorer

Issued by: IBM SkillsBuild

Issued to: Ali Faour

Issued on: 19 May 2023

Description

This credential earner has a foundational understanding of the Agile values, principles, and practices that help change culture and behaviors in the way that people work. The individual can initiate an Agile conversation with team members and colleagues, and can apply the Agile method to the operations and programs work they do in a family, academic, or work environment.

Data Analytics Essentials

Issued by: Cisco

Issued to: Ali Faour

Issued on: 15 June 2023

Description

Cisco verifies the earner of this badge successfully completed the Data Analytics Essentials course. The holder of this student-level credential has a broad understanding how the data analytics process creates value from data, can explain characteristics of data, including formats, availability and methods to acquire, can transform data and analyze data using basic statistical and data preparation techniques. The holder has completed hands-on activities using Excel, SQL, Tableau and other tools.

Introduction to Data Science

Issued by: Cisco

Issued to: Ali Faour

Issued on: 18 June 2023

Description

Cisco verifies the earner of this badge successfully completed the Introduction to Data Science course. The holder of this student-level credential has a broad understanding in basic concepts of Data Analytics, Data Engineering, Data Science and AI/ML related job functions. They also have insight into opportunities available for pursuing career in various data roles.

Networking Devices and Initial Configuration

Issued by: Cisco

Issued to: Ali Faour

Issued on: 3 September 2023

Description

Cisco verifies the earner of this badge successfully completed the Networking Devices and Initial Configuration course and achieved this student level credential. Earner learned characteristics and benefits of cloud and virtualization, explored how to provide Internet Protocol (IP) addresses to devices, calculate an IP addressing scheme, configured Cisco devices to create a small network and tested for connectivity issues. Participated in up to 7 labs and 12 Cisco Packet Tracer activities.

JavaScript Essentials 1

Issued by: Cisco

Issued to: Ali Faour

Issued on: 22 September 2023

Description

Cisco, in collaboration with OpenEDG JS Institute, verifies the earner of this badge successfully completed the JavaScript Essentials 1 course and achieved the student level credentials. Earners know the syntax of the core JavaScript; can work with variables, operators, flow control, and functions; know the basics of data types system; think algorithmically and can analyze problems using a programmatic conceptual apparatus; and can design, develop, and improve simple JavaScript programs.

Python for Data Science

Issued by: IBM

Issued to: Ali Faour

Issued on: 25 September 2023

Description

The badge earner is able to write their own Python scripts and perform basic hands-on data analysis using IBM's Jupyter-based lab environment.

Networking Basics

Issued by: Cisco

Issued to: Ali Faour

Issued on: 26 September 2023

Description

Cisco verifies the earner of this badge successfully completed the Networking Basics course and achieved this student level credential. Earner has knowledge of the types of networks, how they work, how devices send and receive data, the types of network cabling, how IP addresses find information on the Internet, how transport and applications operate, and has practiced building a home wireless network. Participated in up to 13 Cisco Packet Tracer activities.

Endpoint Security

Issued by: Cisco

Issued to: Ali Faour

Issued on: 26 September 2023

Description

Cisco verifies the earner of this badge successfully completed the Endpoint Security course. The holder of this student-level credential has a broad understanding of basic concepts of network security, as well as operating systems and endpoint security.

Network Support and Security

Issued by: Cisco

Issued to: Ali Faour

Issued on: 2 October 2023

Description

Cisco verifies the earner of this badge successfully completed the Network Support and Security course and achieved this student level credential. Earner has knowledge to support endpoints, networks, and users including diagnostics and documentation as a member of a help desk team as well as an in-depth view of troubleshooting of networks and endpoints and knowledge and skills regarding supporting users and networks remotely. Participated in up to 10 labs and Cisco PT activities.
