

Ali I. Faour

Technical Solutions Engineer | Operations Systems | Digital Transformation
Abu Dhabi, UAE | +971 50 427 0258 | ali.i.faour@outlook.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL EXPERIENCE

Royal Development for Gas Works and Contracting

Abu Dhabi, UAE

Operations & Digital Transformation Lead (AIoT/Telemetry) | Associate Project Manager (Oil & Gas)

Dec 2023 - Present

- Trusted as the company's escalation lead for complex operational and technical issues, aligning field teams, inspectors, vendors, PMC stakeholders, and internal management to keep difficult scopes moving.
- Owned end-to-end delivery of an AED 5M Department of Energy LPG infrastructure program under AtkinsRealis oversight, coordinating 400+ work orders across surveys, engineering proposals, cost submissions, takeover notices, approvals, and SLA-driven closeout.
- Recovered a delayed AED 1.2M ADNOC Ruwais project by redesigning manpower deployment around building-level flow and technician strengths; directed 8 technicians onsite, compressed delivery from 6 months to 2 months, and reduced direct execution cost to about AED 300K.
- Built Python and Excel reporting workflows that produced 224 ADNOC submittal packages and converted 1,500+ DoE reports into 450 structured submittals, reducing manual documentation effort and improving submission consistency.
- Directed concurrent IoT initiatives, including configuring, commissioning, and installing 290+ Anova GSM telemetry devices across Abu Dhabi and Dubai; trained technicians, verified devices and gateways onsite, reconciled telemetry with the ETL master database for filling-permit compliance, and used tank data to optimize delivery routes.
- Led program and product alignment with Hanwei's China team, translating executive vision into technical recommendations across device behavior, gateways, sample validation, UI/UX expectations, deliverables, and monitoring platform requirements.
- Conceived and drove development of Gridlock, a 28-module ERP proof of concept for gas utility operations, architecting domain models, workflows, business rules, and module relationships to replace fragmented spreadsheets and legacy CRM processes.
- Reconstructed 30+ years of operational records into a centralized Excel-based master database and ETL pipeline that feeds data from multiple departments into a single source of truth for traceability, reporting, and operational planning.

Royal Development for Gas Works and Contracting

Abu Dhabi, UAE

Intern - Control Systems Engineer / IT Support

Jan 2023 - Nov 2023

- Assembled, tested, soldered, and troubleshooted 60+ LPG gas detection and control panels, ensuring readiness for deployment under UAE regulations and NFPA 58 safety requirements.
- Conducted daily site visits and supported third-party inspections, detector calibration, preventive maintenance, and real-time troubleshooting for LPG systems while monitoring SCADA and PLC-driven gas distribution processes.
- Supported IT operations through Active Directory administration, security log review, infrastructure risk checks, and ERP/CRM ticketing, strengthening issue tracking and system reliability.

Tough Leaf

Beirut, Lebanon

Full Stack Software Engineer

Aug 2022 - Jan 2023

- Developed backend and frontend features for a US construction bidding platform using PHP, MySQL, JavaScript, jQuery, Ajax, and OOP/PDO patterns, supporting 2,000+ database records with optimized query performance.
- Designed REST APIs, integrated third-party payment gateways, and applied security controls including input validation, SQL injection prevention, and XSS protection across the application stack.
- Worked in Agile delivery cycles with Git-based collaboration, technical documentation, and knowledge transfer to support maintainability after the contract period.

SELECTED SYSTEMS INITIATIVES

Gridlock ERP

Solo architecture and product initiative for a gas utility ERP covering lead-to-cash, field execution, documents, and operational workflows for ; designed around .NET 8, Blazor Server, Entity Framework Core, SQL Server, and standardized PDF generation.

DoE Reporting Pipeline

Built a controlled Python + Excel reporting flow using structured inputs, validation checks, transformation logic, and bulk document generation to support regulator- and PMC-facing submissions at scale.

Hanwei IoT Monitoring Platform

Providing technical direction on gas safety device behavior, gateways, validation samples, and user-facing platform requirements while bridging executive goals with field realities and vendor deliverables.

EDUCATION

Lebanese International University

B.S. Computer Engineering

UAE MOHESR recognized | DataFlow verified (Positive, Sep 2025)

Beirut, Lebanon

Oct 2019 - Jul 2022

TECHNICAL SKILLS

Project & Operations: project execution, vendor coordination, stakeholder management, project controls, compliance reporting, process redesign, technical documentation

Software & Data: Python, SQL, C#, JavaScript, PHP, .NET 8 / Blazor Server, Entity Framework Core, SQL Server, Power BI, data pipelines

IoT & Industrial: LoRa / LoRaWAN / LoRa Mesh, Modbus / RS485, GSM / 4G / NB-IoT, SCADA / PLC / DCS, embedded systems, FPGA, signal processing, STM32

Tools & Platforms: Git / GitHub, Docker, AWS, Azure, GCP, Ubuntu / Kali Linux, Microsoft 365, AutoCAD, TCP/UDP

SELECTED CERTIFICATIONS

- AWS Certified Cloud Practitioner - Amazon Web Services
- TUV SUD ISO 27001:2022 Lead Auditor
- ADNOC Work Management System - ADNOC
- ADNOC Onshore + Life Saving Rules - ADNOC
- Industrial IoT Markets and Security - University of Colorado Boulder
- Network Support and Security - Cisco
- Endpoint Security - Cisco
- Introduction to Data Analytics - IBM
- Electric Power Systems - University at Buffalo

Remarks	Verified.	

End Of Report

Recommendation Letter for Ali Faour

To Whom It May Concern,

I am pleased to write this letter of recommendation for Ali, who previously reported to me during his tenure at Royal Gas. Throughout our time working together, I found him to be exceptionally proactive, detail-oriented, and technically skilled.

One of his standout qualities is his ability to deliver accurate and timely data, which consistently supported decision-making processes. His programming capabilities have been instrumental in streamlining operations within his company. Notably, he developed solutions that enabled real-time updates with a single click, significantly enhancing efficiency and alignment across teams.

Currently, he is leading the implementation of an internal application designed to serve as a centralized data bank for Royal Gas. This initiative will empower the entire team with seamless access to updates and insights, again with just one click. His vision and execution in this area reflect both innovation and a deep understanding of operational needs.

Given his experience and technical acumen, I am confident that he has the capability to develop a wide range of applications that would be a valuable asset to any organization. His contributions go beyond technical delivery, they foster collaboration, transparency, and continuous improvement.

I highly recommend Ali for any future endeavors and am certain he will be a significant addition to any team he joins.

Sincerely,

Halla Husain

Associate Director – Project Controls

Dr. Walid El-Kaakour
Assistant professor
Electrical and Electronics department
Lebanese International University (LIU)

Recommendation letter for student Ali Faour to master I of engineering program

Dear Admissions Committee,

It is a great pleasure to recommend student Ali Faour for admission to your master of engineering program. He is one of the most serious students I have taught during “Signals and Systems” course in spring 2020-2021 and finished with a C grade.

He has been very interested in the scientific contents. He has been an active, outgoing presence in class asking the right questions. His seriousness nature and openness to feedback means he is always learning and growing as a learner, an impressive strength that will continue to serve him as well in university and beyond.

Ali has my highest recommendation for admission to your master I of engineering program. Ali's endless curiosity, combined with his willingness to take risks to succeed, leads me to believe there will be no limit to his growth and achievements in university and beyond.

Please don't hesitate to contact me at walid.kaakour@liu.edu.lb if you have any questions.

Sincerely,

Walid El-Kaakour

To Whom It May Concern:

Ali Faour is an excellent student at the school of Computer and Communication Engineering at Lebanese International University. I have taught Ali three major courses : Data Structures and Algorithms, Mobile Applications and Development and Operating Systems.

Ali is an intelligent and self-motivated and very curious student. Moreover, he is hard worker, very ambitious and insistent person.

I greatly recommend you to have a researcher like Ali.

Sincerely,

Dr. Soha FARHAT

Lebanese International University (LIU)

soha.farhat@liu.edu.lb

CERTIFICATE OF COMPLETION

Ali Faour

has successfully completed the online course:

ChatGPT 101 : What is ChatGPT?

This professional has demonstrated initiative and a commitment to deepening their skills and advancing their career. Well done!

Introduction to Cybersecurity

Issued by: Cisco

Issued to: Ali Faour

Issued on: 26 November 2020

Description

Cisco verifies the earner of this badge successfully completed the Introduction to Cybersecurity course. The holder of this student-level credential has introductory knowledge of cybersecurity, including the global implications of cyber threats on industries, and why cybersecurity is a growing profession. They understand vulnerabilities and threat detection and defense. They also have insight into opportunities available with pursuing cybersecurity certifications.

Python Essentials 1

Issued by: Cisco

Issued to: Ali Faour

Issued on: 28 November 2022

Description

Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 1 course and achieved the student level credentials. Earners have knowledge of the concepts of computer programming, the syntax and semantics of the Python language as well as demonstrate the ability to accomplish coding tasks related to the essentials of programming in the Python language and resolve implementation challenges using the Python Standard Library.

Introduction to IoT

Issued by: Cisco

Issued to: Ali Faour

Issued on: 2 February 2023

Description

Cisco verifies the earner of this badge successfully completed the Introduction to Internet of Things course. The holder of this student-level credential has introductory knowledge of IoT and has an understanding how it enables the Digital Transformation along with emerging technologies such as data analytics, AI/ML and the increased attention on cybersecurity. They understand the importance of Intent Based Networking to be able to connect and secure tens of billions of new devices with ease.

Computer Hardware Basics

Issued by: Cisco

Issued to: Ali Faour

Issued on: 9 February 2023

Description

Cisco verifies the earner of this badge successfully completed the Computer Hardware Basics course and achieved this student level credential. Earner has fundamentals knowledge of computers and mobile devices, how they work, as well as the basic concepts and skills needed to install components to build, repair, upgrade personal computers and and basic troubleshooting tools and techniques.

AWS Certified Cloud Practitioner

Issued by: Amazon Web Services Training and Certification

Issued to: Ali Faour

Issued on: 4 March 2023

Expires on: 4 March 2026

Description

Earners of this certification have a fundamental understanding of IT services and their uses in the AWS Cloud. They demonstrated cloud fluency and foundational AWS knowledge. Badge owners are able to identify essential AWS services necessary to set up AWS-focused projects.

Big Data Foundations - Level 1

Issued by: IBM

Issued to: Learner

Issued on: 1 April 2023

Description

This badge earner has a basic understanding of Big Data concepts and their applications to gain insight for providing better service to customers. The earner understands that Big Data should be processed in a platform that can handle the variety, velocity, and the volume of data by using components that require integration and data governance.

Cybersecurity Fundamentals

Issued by: IBM SkillsBuild

Issued to: Ali Faour

Issued on: 3 April 2023

Description

This credential earner demonstrates a foundational understanding of cybersecurity concepts, objectives, and practices. This includes cyber threat groups, types of attacks, social engineering, case studies, overall security strategies, cryptography, and common approaches that organizations take to prevent, detect, and respond to cyber attacks. This also includes an awareness of the job market. Earners can use this knowledge to pursue further education for a variety of roles in cybersecurity.

Artificial Intelligence Fundamentals

Issued by: IBM SkillsBuild

Issued to: Ali Faour

Issued on: 8 April 2023

Description

This credential earner demonstrates knowledge of artificial intelligence (AI) concepts, such as natural language processing, computer vision, machine learning, deep learning, chatbots, and neural networks; AI ethics; and the applications of AI. The individual has a conceptual understanding of how to run an AI model using IBM Watson Studio. The earner is aware of the job outlook in fields that use AI and is familiar with the skills required for success in various roles in the domain.

Operating Systems Basics

Issued by: Cisco

Issued to: Ali Faour

Issued on: 11 April 2023

Description

Cisco verifies the earner of this badge successfully completed the Operating Systems Basics course and achieved this student level credential. Earner has fundamental knowledge of operating systems by covering the basic concepts and skills needed to explain the purpose and characteristics of operating systems, implement basic operating system security, and explain how to configure mobile device network connectivity and email.

Cybersecurity Essentials

Issued by: Cisco

Issued to: Ali Faour

Issued on: 11 April 2023

Description

Cisco verifies the earner of this badge successfully completed the Cybersecurity Essentials course. The holder of this student-level credential has foundational knowledge of cybersecurity, including the basics of network security, encryption and cybersecurity laws. The holder has been introduced to tactics and techniques used by Black Hats, and the principles of Confidentiality, Integrity, and Availability used by White Hats to defend networks.

Introduction to the Threat Landscape 1.0

Issued by: Fortinet

Issued to: Ali Faour

Issued on: 19 April 2023

Description

The Introduction to the Threat Landscape 1.0 badge recognizes a fundamental understanding of the cyber threat landscape. The badge earner has demonstrated essential knowledge of the threats that endanger computer networks, the cast of bad actors who are behind cyber threats, and the cyber security principles that can keep users and computer networks safe.

Python Essentials 2

Issued by: Cisco

Issued to: Ali Faour

Issued on: 16 May 2023

Description

Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 2 course and achieved the student level credentials. Earners have knowledge and skills in intermediate aspects of Python programming, including modules, packages, exceptions, file processing, as well as general coding techniques and object-oriented programming (OOP), and prepares the learner for the PCAP – Certified Associate in Python Programming certification.

Agile Explorer

Issued by: IBM SkillsBuild

Issued to: Ali Faour

Issued on: 19 May 2023

Description

This credential earner has a foundational understanding of the Agile values, principles, and practices that help change culture and behaviors in the way that people work. The individual can initiate an Agile conversation with team members and colleagues, and can apply the Agile method to the operations and programs work they do in a family, academic, or work environment.

Data Analytics Essentials

Issued by: Cisco

Issued to: Ali Faour

Issued on: 15 June 2023

Description

Cisco verifies the earner of this badge successfully completed the Data Analytics Essentials course. The holder of this student-level credential has a broad understanding how the data analytics process creates value from data, can explain characteristics of data, including formats, availability and methods to acquire, can transform data and analyze data using basic statistical and data preparation techniques. The holder has completed hands-on activities using Excel, SQL, Tableau and other tools.

Introduction to Data Science

Issued by: Cisco

Issued to: Ali Faour

Issued on: 18 June 2023

Description

Cisco verifies the earner of this badge successfully completed the Introduction to Data Science course. The holder of this student-level credential has a broad understanding in basic concepts of Data Analytics, Data Engineering, Data Science and AI/ML related job functions. They also have insight into opportunities available for pursuing career in various data roles.

Networking Devices and Initial Configuration

Issued by: Cisco

Issued to: Ali Faour

Issued on: 3 September 2023

Description

Cisco verifies the earner of this badge successfully completed the Networking Devices and Initial Configuration course and achieved this student level credential. Earner learned characteristics and benefits of cloud and virtualization, explored how to provide Internet Protocol (IP) addresses to devices, calculate an IP addressing scheme, configured Cisco devices to create a small network and tested for connectivity issues. Participated in up to 7 labs and 12 Cisco Packet Tracer activities.

JavaScript Essentials 1

Issued by: Cisco

Issued to: Ali Faour

Issued on: 22 September 2023

Description

Cisco, in collaboration with OpenEDG JS Institute, verifies the earner of this badge successfully completed the JavaScript Essentials 1 course and achieved the student level credentials. Earners know the syntax of the core JavaScript; can work with variables, operators, flow control, and functions; know the basics of data types system; think algorithmically and can analyze problems using a programmatic conceptual apparatus; and can design, develop, and improve simple JavaScript programs.

Python for Data Science

Issued by: IBM

Issued to: Ali Faour

Issued on: 25 September 2023

Description

The badge earner is able to write their own Python scripts and perform basic hands-on data analysis using IBM's Jupyter-based lab environment.

Networking Basics

Issued by: Cisco

Issued to: Ali Faour

Issued on: 26 September 2023

Description

Cisco verifies the earner of this badge successfully completed the Networking Basics course and achieved this student level credential. Earner has knowledge of the types of networks, how they work, how devices send and receive data, the types of network cabling, how IP addresses find information on the Internet, how transport and applications operate, and has practiced building a home wireless network. Participated in up to 13 Cisco Packet Tracer activities.

Endpoint Security

Issued by: Cisco

Issued to: Ali Faour

Issued on: 26 September 2023

Description

Cisco verifies the earner of this badge successfully completed the Endpoint Security course. The holder of this student-level credential has a broad understanding of basic concepts of network security, as well as operating systems and endpoint security.

Network Support and Security

Issued by: Cisco

Issued to: Ali Faour

Issued on: 2 October 2023

Description

Cisco verifies the earner of this badge successfully completed the Network Support and Security course and achieved this student level credential. Earner has knowledge to support endpoints, networks, and users including diagnostics and documentation as a member of a help desk team as well as an in-depth view of troubleshooting of networks and endpoints and knowledge and skills regarding supporting users and networks remotely. Participated in up to 10 labs and Cisco PT activities.
